Water Quality Issues **Reported on 6/29/17**

Dear Camden-Wyoming Sewer & Water customer,

Date: **THURSDAY, JUNE 29, 2017**

Time Period: **Beginning approximately 12:00pm.**

This afternoon the CWSWA began receiving numerous calls regarding brown water.

At approximately 2:00pm we found that Wal-Mart Super Center had performed a fire suppression test from 12:00 – 1:00pm.

We do apologize for the inconvenience that this has caused. When we are informed of this type of testing taking place, we can notify the public ahead of time and prepare the system to try and minimize instances of brown water.

You may experience brown water into the evening from this testing taking place.

Please note that we continue to monitor our water system. We maintain appropriate chlorine levels as required by the state and samples are pulled from our system and submitted to the state on a monthly basis as required by the Office of Drinking Water.

If you should have any questions please do not hesitate to contact our office at 302-697-6372.

Respectfully,

Camden-Wyoming Sewer & Water Authority
